

VOSS.farming NV 5500 230V Energiser

A very powerful energiser, suitable for medium-length fences and strong species of animal. **German** manufacturing quality at a great price! Designed for medium-length fences with light vegetation.

Depending on your security requirements, you have the option of switching between a **strong** and a **medium-strength** current. You can therefore also safely care for sensitive or young animals.

The control display, which shows the status of the electric fence, allows you to easily check that the fence is working properly. This "**allrounder energiser**" is also suitable for use with sheep fences.

Details:

- exceptionally versatile
 - with two control LEDs
 - 1x large functional check LED, for monitoring the energiser
 - 1x control LED, for monitoring the fence
- The flashing will stop if the fence voltage drops to below 2000V, so you will be able to immediately detect any defect in your fence system.
- Two fence outputs of medium / strong power allow you to adapt the energiser to meet your security needs. Two separate fence systems can be powered with one energiser.
 - strong and safe technology, impact-resistant casing
 - suitable for outdoor installation, splash-proof
 - tested, high-quality energiser
 - incredibly easy to use

A "**Made in Germany**" product means you can be certain the energiser is of the highest quality and is capable of meeting the most stringent requirements.

Technical Specifications NV 5500

Input	230 V
Stored Energy	4.5 J
Output Energy	3.4 J
Open Circuit Voltage	10,300 V
Voltage at 500 Ohms	5,200 V
Energy Consumption	5 W
Dimensions L x H x D (mm)	195 x 280 x 95
Recommended Number of Earth Rods	3 (available in shop: article no. 44219)
Max Fence Length	60 km
Additional Nettings	8

Contents:

- 1x Energiser NV 5500
- 1x International Warning Sign
- 1x Manual
- 1x EU to UK plug
