

VOSS.farming energiser "NVi 9000"

Our power unit for even the most difficult fencing conditions: Electric fencing mains energizer NVi 9000!

Extremely strong energizer for long fences with heavy vegetation. It is even suitable for wildlife protection fence systems and to protect fields or gardens against boars.

Details VOSS.farming "NVi 9000":

- Output of 11.0 joules and 11,200 volts
- **Very powerful** unit with adjustable power output
- Suitable for very long fence lengths with heavier vegetation growth
- Complies with the European safety standard EN60335
- With 3 very bright multi-LED indicator lights
(visual monitoring of fence condition, grounding and consumption)
- With alarm function that monitors the fence
(triggers an alarm and slows the pulse sequence when the fence is touched for an extended period of time)
- Two fence terminals with different strengths
- Two separate fences can be connected at the same time
- Very high discharge power at low power consumption
- Weatherproof and durable casing
- Service friendly technology in modular design
- Very easy to use
- Quality product, **made in Germany**
- **3-year warranty**

Technical Specifications NVi 9000

Input	230 V
Stored Energy	11.0 J
Output Energy	8.0 J
Open Circuit Voltage	11,200 V
Voltage at 500 Ohms	7,900 V
Energy Consumption	9 W
Dimensions L x H x D (mm)	290 x 210 x 115
Recommended Number of Earth Rods	3 (available in shop: article no. 44219)
Max Fence Length	230 km
Additional Nettings	22

Contents:
